

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SUMMARY.

PART I.

THE AMERICAN SILK INDUSTRY.

1. INTRODUCTION.

In all countries early silk manufacture has required assistance 2

Causes which prevent the growth of the industry independently 3

2. GENERAL VIEW OF THE INDUSTRY.

The great increase of Civil War duties..... 4

Amount of domestic production..... 5

Imports 6

Relation of home production to consumption. Caution to be observed in interpreting figures..... 7

Different divisions of the industry..... 9

PART II.

THE RAW SILK.

3. NATURE OF THE SILK FIBRE: EARLY SUPPLIES FROM THE ORIENT.

Differences between reeled and spun fibres..... 11

Importance to American manufacture of careful reeling.. 12

Silk "throwing" prepares the raw yarn for use in the loom 14

Difficulties arising from poor quality of Chinese silk..... 15

a. American reels in China, 1840..... 16

b. Troubles from adulteration..... 17

c. Unsatisfactory nature of Chinese yarns..... 18

Japanese raw silk in the seventies..... 18

a. Early difficulties..... 19

b. Efforts of Japanese to improve their product.... 19

Chinese and Japanese threads compared..... 20

Imports from China explained. Comparison of prices.

Chinese policy..... 24

The London raw silk market..... 25

Asiatic and European threads compared..... 26

4. RECENT RAW SILK PROBLEMS: SERICULTURE IN THE UNITED STATES.

Imports of Italian yarns in the early eighties..... 28

American reeling machines in Italy..... 29

Importations from all countries in recent years: the policy of Japan.....	30
Sericulture in the United States. Difficulties.....	33
Raw silk culture in California and other states since 1860.	34
Efforts of the Department of Agriculture to foster sericulture since 1898.....	36
Conclusions as to silk growing in this country.....	38

PART III.

GEOGRAPHICAL DISTRIBUTION OF THE INDUSTRY.

5. EARLY CENTRALIZING FORCES.	
Connecticut's early manufactures.....	40
Spread of industry due to failing supply of domestic raw silk	41
Influence of imported supplies.....	42
Importance of proximity to New York City.....	43
Concentration in New Jersey after the Civil War.....	44
Factors acting on localization of laces, fringes, and trimmings	47
Experiment with Chinese labor, California, 1875.....	49
6. PENNSYLVANIA AND THE NEW MANUFACTURES.	
Revolution of throwing machinery and employment of children	50
Rush of manufacturers to Pennsylvania.....	51
Comparative advantages of central and isolated locations	51
Growth of New Jersey manufactures compared with those of Pennsylvania since 1890.....	52
Numbers of men, women, and children employed in Pennsylvania and in the whole United States.....	53
Pennsylvania and New Jersey compared as to production of ribbons and broad goods.....	54
Problem of the future.....	55

PART IV.

SURVEY OF THE RATES OF DUTY IMPOSED BY THE VARIOUS TARIFF ACTS.

7. LEGISLATION 1864-1883: SPECIFIC AND AD VALOREM DUTIES.	
The revenue duty of the Civil War.....	56
General ad valorem rate reduced from 60 per cent to 50 per cent in 1883.....	57
Progress under lower duties.....	58
Comparison of ad valorem and specific systems.....	58
Defects of Act of 1883.....	61
Attempts at specific schedule for silks.....	62

8.	THE ACT OF 1890.	
	The specific system in the House Bill.....	64
	Attempt to raise duties by a change of system.....	66
	Some duties raised apparently without cause.....	67
	Pile fabrics and lace duties.....	68
	Act of 1890 in the Senate. Reduction of rates.....	69
	The conference committee and the final bill.....	70
	The influence of J. and J. Dobson.....	70
	Results of Act of 1890.....	71
9.	THE WILSON BILL OF 1894.	
	Political situation.....	73
	The House Bill—lower duties on silks.....	74
	The Senate amendments.....	74
	The contest over pile fabrics.....	75
	Causes of distress in pile fabrics industry.....	75
	Reduction of the specific rates.....	78
	Higher rates on velvets than on plushes.....	79
	Final outcome of Act of 1894.....	80
10.	THE DINGLEY TARIFF OF 1897.	
	Financial conditions. Higher duties.....	81
	Specific schedule on silks long planned.....	82
	Conditions in the industry analyzed.....	83
	Most lines of silk production were prosperous.....	83
	Extreme protectionist disposition of Congress.....	85
	Influence of the Connecticut manufacturer.....	87
	The Senate debate.....	88
	Flaws in the specific plan pointed out.....	89
	Final outcome.....	94
11.	RESULTS OF THE SILK RATES IN THE TARIFF OF 1897.	
	Imports since 1897—their various amounts.....	95
	High rates on cheap goods, low rates on most expensive articles	99
	Some rates excessive.....	100
	Defective working of specific schedule.....	101
	Dress goods importations since 1899.....	102
12.	THE TARIFF ACT OF 1909.	
	New schedule prepared by the Silk Association of America	102
	Increase in duties not protested.....	103
	General agreement as to advisability of a specific schedule	104
	Specific rates now applied to spun silks, thread, and throw-	
	ing silks.....	105
	Analysis of the re-classification of piece goods.....	106

Reductions: lowering of the <i>minimum</i> on piece goods and velvets; lower rates on handkerchiefs.....	107
Artificial silk; the principle of compensation.....	108
Good features of the Act of 1909.....	109

PART V.

RECENT CHANGES AND PRESENT STATUS OF THE INDUSTRY
AS REGARDS PROTECTION.

13. AMERICANIZATION OF THE INDUSTRY AND DEPENDENCE ON PROTECTION: SILK THROWING AND THE THREAD MANUFACTURES.	
Revolutionary changes beginning about 1890.....	110
The industry becomes Americanized.....	111
Thrown silks; new automatic machinery.....	112
Thrown silks cheaper here than abroad.....	114
Sewing silk—long independent of tariff.....	116
Considerable amounts exported.....	117
14. DEPENDENCE ON PROTECTION: COMPARISON OF AMERICAN AND EUROPEAN METHODS OF PRODUCTION.	
Industrial characteristics.....	117
Domestic as distinguished from foreign products.....	118
The very cheap hand-loom products.....	118
The very expensive hand-loom products.....	119
Machine-made products.....	121
Characteristics here and abroad.....	122
15. DEPENDENCE ON PROTECTION: RIBBONS.	
Growth of the American ribbon industry.....	123
Great cheapening in cost of ribbon manufacture. American inventions.....	124
Highly figured weaves more costly in labor.....	125
The American manufacturer cannot diversify his patterns	126
Extent to which ribbon industry is dependent on tariff protection	128
16. DEPENDENCE ON PROTECTION: BROAD GOODS.	
Enormous increase in production.....	129
Improvements in American broad looms.....	130
Protective stimulus, competition, and overproduction....	135
Some broad goods now made here as cheaply as in Europe	136
Certain kinds not suited to American conditions of production	138
Conclusions as to dependence of broad goods manufacture on tariff.....	141
17. DEPENDENCE ON PROTECTION: OTHER FABRICS.	
Trimmings. Hand looms and power looms in America.	

Distinction as to kinds that can be produced here and kinds that cannot.....	144
Tapestries and curtains. Most kinds cannot profitably be made here.....	147
Braids—history of their manufacture.....	148
a. Adaptability of the various kinds of braid to conditions of production here.....	151
Artificial silk.....	152
Pile fabrics.....	153
a. Decline in production of plushes.....	155
b. Pile fabrics and protection.....	156
Knit goods: conditions of production.....	156
a. Underwear—difficulties of manufacture.....	157
b. Gloves, mitts, hosiery—adaptability to production in this country.....	158
Laces and their manufacture.....	162
a. Decrease in production, increase in importations..	163
b. Unsuitable to conditions of production here.....	164
Conclusions	164
18. DEPENDENCE ON PROTECTION: VARIOUS OPINIONS.	
Opinions of manufacturers.....	166
a. Always one-sided.....	166
b. Mr. Cheney's arguments for protection.....	167
c. The argument based on lower prices.....	169
d. The "cheap labor" arguments.....	170
Opinions of silk manufacturers.....	170
a. American and European silks are two entirely different products.....	170
Opinions of buyers.....	171
a. Market demands for domestic and foreign silks....	172
Personal experiences.....	173
19. CONCLUSION.	
Silk Industry due to protective tariff.....	175
Serious obstacles to growth of industry.....	175
The obstacles cleared away.....	176
The American silk manufacture is still partly a young industry	177
BIBLIOGRAPHY	179
